**NO**

**DUMPING**

Dear Commissioner Pascal Lamy,

since many years the main international institutions are declaring that the EU Common Agricultural Policy (CAP) causes food insecurity and hinder development of Southern Countries. Time has come to give international trade transparent and equal rules for all. Recalling the commitments of the European Union at the Monterrey Conference on Financing for Development and at later international events, we appeal for the reform of the CAP abolishing measures which favour "dumping" and, in particular, subsidies to export.
